Pupil Premium 2017/18

Policy, Allocation, Spend & Impact

Ark

Background

Introduced in April 2011, the Pupil Premium is a Government initiative that provides additional funding aimed at pupils from deprived backgrounds. Research shows that pupils from deprived backgrounds underachieve compared to their non-deprived peers.

The Pupil Premium is provided in order to support these pupils in reaching their potential by accelerating their progress.

The Government has used pupils entitled to Free School Meals and those who are looked after as an indicator for deprivation. They have given a fixed amount of money to schools per pupil, based on the number of pupils registered for Free School Meals and who are looked after by the local authority. A premium has also been introduced for children whose parents are currently serving in the armed forces. This service premium is designed to address the emotional and social well-being of these pupils.

Principles

- At Ark Atwood Primary Academy, all members of staff and governors accept responsibility for those pupils recognised as 'disadvantaged' and are committed to meeting their pastoral, social and academic needs.
- Every child who is considered to be 'disadvantaged' is valued, respected and entitled to develop to his/her full potential, irrespective of disadvantage.

Aims

- Our Academy will ensure that the Pupil Premium funding reaches the groups of pupils for whom it was intended and that it makes a significant impact on their education and lives.
- The Pupil Premium will be used to provide additional educational support to improve the progress and raise the achievement for these pupils.
- The funding will be used to narrow and close the gap between the achievement of these pupils and their peers.
- The Academy will use the additional funding to address any underlying inequalities between children eligible for Pupils Premium and others.

Practice

How we will ensure effective use of the Pupil Premium

- The Pupil Premium will be clearly identifiable within the budget.
- The Principal, in consultation with the governors and staff, will decide how the Pupil Premium is spent for the benefit of the entitled pupils. Funding will be allocated following a needs analysis, which will identify priority groups or individuals.
- The Academy will assess what additional provision should be made for the individual pupils.
- The Academy will be accountable for how it has used the additional funding to support the achievement of those pupils covered by the Pupil Premium.

- The Principal will report to the governing body and parents on how effective the intervention has been in achieving its aims, including publishing online information about how the Premium has been used.
- We will track the impact of the strategies put into place through the funding to ensure that we can show the value that has been added to the education of the entitled children.
- We will monitor evaluate and review the success of the impact of the pupil premium funding.

Provision

We will regularly seek to further develop strategies and interventions which can improve the progress and attainment of these pupils. Examples of the range of provision we may put in place include:

- Providing small group or 1:1 support with an experienced member of staff to focus on overcoming barriers to learning.
- Facilitating pupils' access to education and the curriculum through additional or specialist resources e.g. specialist software.
- Additional teaching and learning opportunities provided through additional teachers, trained TAs or external agencies.

Reporting outcomes

It will be the responsibility of the Principal to produce a report for the Governing Body that will include:

- The progress made towards closing the gap, by year group, for disadvantaged pupils.
- An outline of the provision made during the term since the last report.
- An evaluation of the cost effectiveness, in terms of the progress made by the pupils receiving a particular provision, when compared with other forms of support.

Appeal

Any appeals against this policy will be through the governor's complaints procedure.

Pupil Premium 2017/18: Allocation, Spend and Impact

Pupil numbers used to calculate the Pupil Premium Grant (PPG)

Where a new school is not fully established, and at the start of the autumn term 2017, the school has been open for fewer years than the number of year groups in the school, then the school's allocation will be revised in March 2018. The revised allocation will apply the rates set out in section 2 to the increase in eligible pupils between the January 2018 school census and the October 2017 school census. The increase will be prorated by 7/12ths to reflect that the additional year groups have been in place for 7 months of the financial year.

How are we spending the Pupil Premium?

The academy draws on research evidence (such as the Sutton Trust toolkit – <https://educationendowmentfoundation.org.uk/toolkit/toolkit-a-z/>) and evidence from our own experience to allocate funding to activities that are most likely to maximise achievement. We never confuse eligibility for the Pupil Premium with low ability, and focus on supporting our disadvantaged students to achieve the highest levels.
